

FOR IMMEDIATE RELEASE

CCS Inc. Drives Growth with a New EMEA Headquarters in the Netherland

Kyoto, Japan, 24 December 2020 – CCS Inc. (CCS, Japan; President – Mr Hiroyuki Onishi), the world’s leading manufacturer of solid-state illumination and photonic solutions, is delighted to announce the opening on 1st January 2021 of CCS Europe Holding B.V. (CCSEH), strategically located near Amsterdam, the Netherlands.

CCSEH will form the EMEA headquarters for CCS and take a pivotal role, providing strategic leadership to ensure future success for European CCS Group companies: CCS Europe, Effilux and newly integrated Gardasoft Vision.

By leveraging the acclaimed technologies with industry-leading research, local R&D capabilities, and new partnerships, CCSEH will empower its customers with unique products and unrivalled techniques. CCSEH will also drive the diversification of CCS into new markets, adjacent to traditional Machine Vision applications.

The CEO of CCS Europe Holding B.V., Mr Hiroshi Matsubara, who was formerly President of Ushio Europe B.V. describes the establishment of CCSEH as a key milestone in global leadership. Mr Matsubara said, “The unparalleled expertise and visionary leadership of CCS Group drive a relentless obsession with customer satisfaction. The new EMEA headquarters will maximize group synergy and enable CCS to deliver pioneering, creative propositions which add huge value in the machine vision industry.”

CCS Group will enhance its global presence and enable industrial automation customers worldwide to see all that must be seen.

For more information, please do not hesitate to contact us directly.

About CCS

CCS Inc. is the global leader in LED lighting and power supply for machine vision applications, pioneering advances in Illumination and Photonics products and technologies. Headquartered in Kyoto, Japan, CCS offers a wide range of machine vision lighting solutions: high-precision area and line scan illumination with special functions and intelligent lighting as well as plug & play lighting solutions. With over 25 years of expertise and 29 offices worldwide, CCS manufactures the largest, highest-quality selection of standard and custom

products in the industry—realizing solutions that provide customers with the visibility they need for machine vision.
