LN-HK Series Product Discontinuation Notice

Dear Customers,

We hereby inform you that the LN-HK will be discontinued due to the discontinuation of a key component.

Purchase orders will be accepted on a first-come, first-serve basis.

As the inventory of the discontinued key component is limited, we may be unable to accept orders when total demand exceeds the available quantity.

We may close transactions even before the final order date once the inventory has been exhausted.

There are no successor standard models with equivalent specifications. Please contact us for the alternatives including custom products.

Thank you.
