Count on CCS for Your Complete Inspection Solution!

As a leading manufacturer of LED lighting for machine vision, CCS develops lighting solutions designed to improve image quality and inspection performance. We apply our expertise in lighting techniques to solve a wide range of inspection challenges across many industries.

In recent years, CCS has expanded its partnerships with camera and lens manufacturers, software providers, and other technology companies. Together, we offer more complete solutions that address customer needs throughout the inspection process.

A Trade Show to Discover the Latest Inspection Solutions

“Flexible collaboration with a diverse range of partners”
“An open platform for finding solutions to customers’ challenges”

This private trade show brings together CCS and our partners in cameras, lenses, and technologies to help solve challenges throughout the inspection process. Discover the latest products and solutions for machine vision inspection, all in one place.

Visualize
